Circulation FAQ

1. What is OPAC, and how do I use it?

The OPAC (Online Public Access Catalogue) enables you to search, reserve, and renew library items via the OPAC link https://libopac.iimb.ac.in/. It allows you to check an item's availability, location, and status (issued/available). For more details, please refer to the instructions provided in the handout link: https://library.iimb.ac.in/opac/hsb.

2. How many books or items can a member borrow at one time?

Borrowing limits vary by patron category, such as Faculty (600 books), Visiting Faculty (30 books), FPM/PhD students (30 books), Research Fellows (25 books), and PGP Students (6 books), among others. For more details, please go through this link: https://library.iimb.ac.in/gm/cp

3-Can reference books or rare materials be borrowed?

No. Reference books, rare materials, theses, and specific reports are meant for in-library consultation only and cannot be issued.

4. Can I borrow books using someone else's card?

No. It is not permissible. Members are responsible for all materials borrowed using their own cards.

5. How can I check my current loans and due dates online?

You can log in to your library's online catalogue (OPAC) using your credentials to view current loans, due dates, and renew or reserve items.

6. How can I renew borrowed items? Can renewals be done online?

Yes. Renewals can be completed online through the library's OPAC before the due date or by using the Self Kiosk in the library.

7. How many times can I renew an item?

You can renew your books as many times as needed, unless another member has placed a reservation on them.

8. Can I renew a book if another user has placed a hold or reservation on it?

No. Once another user reserves a book, it must be returned by the due date and cannot be renewed.

9. How do I reserve a book that is currently checked out by someone else?

You can place a reservation request through the Online Catalogue (OPAC) using your login credentials. Search for the book you wish to reserve, open its record, and click the 'Reserve' button. Please note that you cannot place a reservation for books that are currently available for checkout. For more details, please follow the instructions provided at the handout link: https://library.iimb.ac.in/opac/hrrb

10-What should I do if I lose my Property Counter Token?

Report the loss immediately to the Circulation Desk.

11. What are the overdue fines or penalties for late returns?

A fine of ₹1 per day per book (or as per library rules) is charged for overdue items.

12. What happens if I lose a borrowed item?

The borrower must replace the item with the latest edition or pay the replacement cost. For more details, please write to library@iimb.ac.in

13. Can I request a book to be purchased by the library?
Yes. You may send an email to library@iimb.ac.in with the book details.
14. Can fines be paid online, or only at the circulation desk?

You can pay online at the Circulation Desk. To receive the payment QR code, please send an email request to library@iimb.ac.in.

15. Does the library provide inter-library loan services?

Yes, patrons can request materials not available in the library through the Inter-Library Loan (ILL) service.

16. Can I access e-resources remotely?
Yes. IIMB patrons can access e-resources remotely. A system-generated email will be sent to all students to reset their credentials. If you face any issue, please write to library@iimb.ac.in

17. How do I access the library's e-databases?
Please visit the 'Databases A–Z' section on our library website (https://library.iimb.ac.in/database/a-z) and select the desired database. For more information, kindly refer to the video link provided: https://youtu.be/LqotTD0qlR8.
18. How can I access online journals?

You can access the library's e-journals through the library website. Please go to the 'Library Tools' tab on the library website https://library.iimb.ac.in/library, click on 'Journal Finder (Quick Finder),' and search for the journal you need. For more information, kindly refer to the video link provided: https://youtu.be/Lvf1tRnU3EA

19. What should I do if the system doesn't allow me to renew a book online?
Contact the Circulation Desk or send an email to library@iimb.ac.in. Another user might reserve the book.

20. Can I get notifications for my reserved books?
Yes. You will receive an automated email notification as soon as the reserved book becomes available in the library.
21. Does the library issue clearance certificates for outgoing students or staff?
Yes. A "No Dues Certificate" must be obtained from the library before leaving the institution.

FAQ on External Members

Blackwell Encyclopedia of Sociology Online

It gives you instant access to the most authoritative and up-to-date scholarship in the field of sociology.

Bloomberg Professional Service

Is a Standalone Database

Bloomberg has data on more than 5 million bonds, equities, commodities, currencies & funds. It covers most every publicly traded company in the world and has profiles on more than a million people. Navigation in Bloomberg is different from most other databases you use. Bloomberg is a decentralized command-driven system. The commands are represented by codes.

Note: This database can be accessed in the library data centre only. Please click on the Booking form link to book your timeslot to access the database.

Bloomsbury Encyclopedia of Philosophers

It features thousands of critical biographical entries on individuals who have contributed to the history of modern thought and philosophy. Each entry includes a comprehensive overview of a subject's life, work, and reception together with a bibliography and list of further reading. The resource covers thinkers from across the globe, including Britain, Germany, France, the Netherlands, Spain, Ireland, North America, the Middle East, and India. The period focuses on the seventeenth to the twentieth century.

Business Line

This paper included in-depth stories on agribusiness, BFSI, logistics, and the states. it offers data-backed insights on subjects ranging from India's tax base and state goverment finances to the gender pay gap. Interactive weekly columns that address reader queries on taxation, insurance, mutual funds, and derivatives. Our current subscription has rolling backfile access of 365 days for e-paper and archival access for the digital edition of Business Line from Aug 2009 to date.

Mobile App: It supports iPhone & Android. You can download the apps "BusinessLine e-paper" & "BusinessLine" from the mobile stores (Google Play Store & Apple Store) and access the same through the mobile app by using your registered credentials for BusinessLine. Please note the same credentials will be applicable to access both newspapers, i.e., BusinessLine and The Hindu.

Note: Please click here to register. Kindly note one-time registration is required by using your IIM-B email ID (xyz@iimb.ac.in), and the same credentials can be used to access 'The Hindu (Digital & e-paper) as well. (To access Business Line through mobile app, you need to register first at the desktop version of Business Line and post registration the same credentials can be used to access in mobile app.)

Business Standard (Digital & e-paper)

Business Standard provides news on markets, companies, technology, etc. It covers the period 2002 to till date. E-paper can be downloaded from April 2023 onwards.

CALCBENCH

It is a research tool for financial statement analysis, financial accounting, and auditing of public companies using SEC (Security and Exchange Commission) XBRL data. It is web-based

access to US Financial Statement data that allows textual analysis. Calcbench will be helpful in the classroom setting in courses that involve valuation and financial statement analysis.
Coverage
Over 12,000 listed public companies
Access within minutes of filings being made public.
Every number from the financials and footnotes of every 10-K and 10-Q, and Earnings Release Plus, proxy statements, 8-Ks, and SEC comment letters
Trace every value back to the source document.
New filings are processed five minutes after leaving the CFO's desk.
Data available from 2008 onwards

Cambridge University Press-HSS Collection
CUP-HSS collection comprises of 44 Journal titles under Humanities and Social Science Collection. The Backfile access starts from 1997 onwards.

Captable
The Captable is a premium news subscription product. The articles published in Captable gives an inside view of the strategy shift at India's new-economy companies, founder-investor dynamic and emerging trend in startup world. As a subscriber you will have access to all the premium reads- new analyses, and deep dives along with that you will have access to org chart which provide a deep understanding of the decision-makers driving India's largest internet companies.
Access Type: Sign up with IIM-B email ID to get the premium access of Captable.

CEIC
CEIC covers 200 countries with 18 macro-economic sectors, and 15 industry sectors. Data is sourced through the World Bank, IMF, and OECD. Global Database: Global database covers more than 5.8 million time series are covering 214+ economies. Granular country-level information on 18 macroeconomic sectors, such as inflation, exports, tourism and more. It includes detailed methodological references at the indicator, dataset, sector, and country levels. Key series feature for quick reference on key country indicators, such as GDP, GNP, FDI, and CPI. Browser Supports: Google Chrome V31 and above; Mozilla Firefox V30 and Above ; Internet Explorer V11 and Above; Microsoft Edge Latest versions ; Safari iOS: V9 and Above.

Census Data (1881-1941) & (1991-2011)
Multiuser Access
The library has digitized Census reports from 1881 to 1941. A census workstation is set up at International Data Centre from which comprehensive census reports from1991-2011 are accessible.

CMIE - CapEx
Database Profile Handout Multiuser Access
This database covers new and ongoing investment activities in India which includes information on investment projects. It covers over 87,000 completed, outstanding and stalled/shelved/abandoned projects.

* Please note that this resource has a data download limit. If you need to download large amounts of data, please contact the library beforehand. Please click here to know about copyright information.

CMIE - CapExdx

The CapExdx database contains the history of implementation of projects since 1995. Over 50,000 projects have been tracked. It includes projects those for infrastructure, manufacturing or even services. These could be implemented by the government, private sector companies or foreign companies.
* Please note that this resource has a data download limit. If you need to download large amounts of data, please contact the library beforehand. Please click here to know about copyright information.

CMIE-Consumer Pyramids dx (CPHS)New Image
Handout Register Here Multiuser Access
Consumer Pyramids is the largest survey of households of India. It makes estimates of income, expenses, savings, borrowings, investments and ownership of assets of households. It also makes estimates of the age, gender, education, occupation, health and financial inclusion of individuals. CPHS is conducted thrice every year. Thus, there are three Waves every year. The sample size of the survey is around 170,000 households, and the sample is maintained as a panel surveyed over multiple Waves. CPHS includes the following databases:

a)-People of India dx: The People of India database is particularly rich in capturing labour market supply characteristics. It provides information on the employment/unemployment status of every individual over 14 years of age. It covers in detail of the duration of place of work, type of employment and nature of engagement. Data is available from Jan 2014 to till date.

b)-Aspirational India dx: The Aspirational India database offers several kinds of data that throw light on household assets and amenities, household sentiments, their perceptions, and decisions regarding the purchase of assets or to make investments. It covers data on ownership of a dozen assets by households and insights into the standard of living of Indian households. Data is available from Jan 2014 to till date.

c)-Income Pyramids dx: This database presents information on income from wages, pensions, dividends, and interest of individual earning members of households. Each source of income is revealed separately. It offers income received by the household from sources that are usually not attributable to a specific individual of the household. These include private transfers, government transfers, business profits, profits from sale of assets, the imputed income of home-grown agricultural products used for self-consumption, lotteries & gambling. It delivers monthly data for its sample households from January 2014 onwards.

d)-Consumption Pyramids dx: Consumption Pyramids delivers a monthly series of household consumption expenditure & snapshots of weekly expenses on select fast-moving expense items. The Consumer Pyramids Household Survey focuses on two questions. First, how much do households spend, in rupee terms, on consumption expenditure & second, what is the broad distribution of this spend. Consumption Pyramids also provides snapshots of weekly expenses

on 27 items on which expenses are made with faster frequency. Data is available from Jan 2014 onwards.

* Please note that this resource has a data download limit. If you need to download large amounts of data, please contact the library beforehand. Please click here to know about copyright information.

CMIE Economic Outlook

This database provides an overview of the Indian economy. It covers data on Business, Macro-economics, Sectoral and Socioeconomics. It provides forecasts data on growths, inflation, fiscal balance, the balance of payments, corporate earnings etc. it contains hundreds of original government publications. Economic Outlook keeps up to date on the macro-economic environment with incisive independent analysis, forecasts every quarter, and regular alerts.

CMIE Economic Outlook: Mobile App: India Economic Outlook. The App presents an analytical view of the Indian economy with the help of incisive essays, succinct tabulations, and explicit charts. It covers every major topic of the Indian economy with an emphasis on the fast frequency type of indicators.
India Economic Outlook: The mobile phone App Features:
1. Contains most recent Economic Outlook analysis
2. Contains associated tabulations and charts
3. Contains latest Daily Newsletter
4. Contains all Fast-frequency data with the latest

* Please note that this resource has a data download limit. If you need to download large amounts of data, please contact the library beforehand. Please click here to know about copyright information.

CMIE - Tradedx

Database Profile Handout Register Here Multiuser Access

Tradedx is a database comprising data for India's foreign trade. India's trade data is collected and disseminated by Directorate General of Commercial Intelligence & Statistics (DGCI&S) in two classification systems - Principal Commodities (PC) and Indian Trade Classification (ITC). PC data is of relatively faster frequency, but it does not provide data by detailed classification. PC data is available for 168 commodities each for exports and imports. It is available for monthly, cumulative, and annual frequency. ITC data is released by DGCI&S with a lag but is a more detailed presentation. It is available for commodity classification at the 2-4-6-8-digit level for around 20,000 commodities. Data is available for monthly, cumulative, and annual frequency.

* Please note that this resource has a data download limit. If you need to download large amounts of data, please contact the library beforehand. Please click here to know about copyright information.

I/B/E/S Estimates (Via WRDS)
Restricted to Faculty & FPM
I/B/E/S (Institutional Brokers' Estimate System) gathers and compiles the different estimates made by stock analysts on the future earnings for publicly traded companies. It provides current and historical consensus data and forecasts from security analysts, for companies worldwide. Forecast items include earnings per share, revenue, cash flow, long-term growth projections, and stock recommendations. Data are available in multiple frequencies as well as covering shorter or longer time frames. Consensus estimates are calculated using only underlying estimates that have been created on the same basis, giving maximum comparability between companies. Coverage is available from 1976.
There are different sections / datasets as mentioned below:
• The Summary History consists of a snapshot of the consensus level data taken monthly. The U.S. data cover reported earnings estimates and results since January 1976, while the international data is available from 1987.
• The Detail History (Analyst Earnings Estimate History) is a timeline of individual analysts' earnings forecasts (daily records at the analyst level). The U.S. data starts from 1983, while the international data is available from 1987.
Note: Please register in WRDS database to access it.

Copyright assistance / guidelines

Indian Copyright Act provides exceptions to libraries is for the use of copyrighted works under the statutory fair dealing exceptions of the Copyright Act (section 52) as well as under the judicially created fair use exceptions. Broadly the law permits the use of copyrighted works by libraries for the following purposes.

a. **Research instruction and teaching**
b. **Instruction and teaching**
c. **Private study**
d. **Enabling access to the disabled**
e. **Activities of an educational institution**
f. **Review and criticism**
g. **Searching and data mining sing; storage and preservation**
h. **Access to knowledge**

The fair dealing and the fair use exceptions are provided under section 52 of the Copyright Act and have emanated from different court decisions, recently from the Delhi high court decision on the Chancellor of Oxford University Press, Taylor and Francis, and others Vs. Rameshwari Photocopy Services and others.

==========

Datasets Profiles

For more details:https://library-iimb-ac-in.iimb.remotexs.in/datasetaccess

This guide provides information on various sets of data available to the IIMB community for research and academic use. The profiles of these datasets also include copyright information and software and hardware requirements. Some of these are stored in CD mirroring server and are easily downloadable to your laptops. Please download the copyright form, sign and scan it to send it to the librarian@iimb.ac.in email ID.

Here are definitions: Source ODLIS https://products.abc-clio.com/ODLIS/odlis_about.aspx

Data set:A logically meaningful collection or grouping of similar or related data, usually assembled as a matter of record or for research, for example, the American FactFinder Data Sets provided online by the U.S. Census Bureau or the National Elevation Dataset available from the U.S. Geological Survey. Also spelled dataset. See also: social science data set

Database:A large, regularly updated file of digitized information (bibliographic records, abstracts, full-text documents, directory entries, images, statistics, etc.) related to a specific subject or field, consisting of records of uniform format organized for ease and speed of search and retrieval and managed with the aid of database management system (DBMS) software. Content is created by the database producer (for example, the American Psychological Association), which usually publishes a print version (Psychological Abstracts) and leases the content to one or more database vendors (EBSCO, OCLC, etc.) that provide electronic access to the data after it has been converted to machine-readable form (PsycINFO), usually on CD-ROM or online via the Internet, using proprietary search software. Most databases used in libraries are catalogs, periodical indexes, abstracting services, and full-text reference resources leased annually under licensing agreements that limit access to registered borrowers and library staff. Abbreviated db. Compare with data bank. See also: archival database, bibliographic database, embedded database, metadatabase, and niche database.

Social Science Data Set:

A file of structured data, usually statistical in nature, for use in social science research. The most common types contain census and survey data. Archives of social science data sets are available online, often by

subscription. The University of Amsterdam provides Social Science Data Archives maintained by Holly Ackerman. Also spelled social science dataset.
